Dear Mr. *Norman*

Over the last two months, administration officials have repeatedly invoked the final report of the Review of U.S. Human Space Flight Plans Committee, which you chaired, as the justification and source for the fiscal year 2011 budget request for the National Aeronautics and Space Administration (NASA).

As ranking member on the House Commerce-Justice-Science Appropriations Subcommittee -- which funds NASA -- I would appreciate your assistance in helping to clarify this matter for the subcommittee. Could you please advise as to whether your panel made any recommendations to the president, and specifically, whether the proposal that is included in the president's budget for NASA was one of the options offered or recommended in your report?

Thank you for your continued service to our nation. Please do not hesitate to contact me or my staff member, Thomas Culligan, at 202-225-5136 if I can be of further assistance.

Best wishes.

Sincerely,

Frank R. Wolf
