President George W. Bush's 2004 "Vision for Space Exploration" was expressed in several public documents released by the White House, including:

- [the President's January 14, 2004 speech](#) at NASA Headquarters (*note that the internal links in this document do not work because President Bush's White House website was archived when he left office*);
- a [fact sheet](#) issued by the White House Office of Science and Technology Policy (OSTP); and
- a booklet, [A Renewed Spirit of Discovery](#), also issued by OSTP.

NASA issued its own [booklet](#), *The Vision for Space Exploration*, in February 2004 about how it planned to implement the Vision.
